Subject: Portland Harbor Cleanup

In regards to the Portland Harbor superfund cleanup, I urge the EPA to balance the need to clean up the river at a useable and acceptable level with the costs associated with the final plan. I am concerned if the plan overreaches with a liability so large it impacts utility ratepayers and small business the plan will do more harm than good to the local economy.

The river is an important part of our community and appreciate the efforts to create a plan that will restore the river while balancing the costs. Thank you for your consideration. .

Sincerely,
